Skills

React JS, React Native JavaScript, Laravel, Postgres, Node JS and Express JS

Experience

June 2019 - November 2019
Digital Dream, Enugu Nigeria - *Web Development*

Built and released an E-commerce website that enables users to shop to their respective cart whenever it passes a set threshold by the user. Integrated payment processing API and Rest APIs. Built fully in React and Javascript using Visual Studio Code. Also released a Store Manager that enables users to create and store necessary items available and also update the items if any changes required. Built fully using Laravel package

Education

September 2016 - August 2021
University Of Nigeria, Nsukka - *Statistics*

I majored in Statistics.

Took courses Regression Analysis, Time series Analysis, sampling techniques, Operation Research and Non Parametric Analysis.

I graduated with a second Class honors lower division.
